

Hyder - Dike Road Species Checklist

For more information, see <https://ak.audubon.org/>.

Seasons:

Spring: March–May

Summer: June and July

Fall: August–November

Winter: December–February

Frequency Classification:

C = Common: Occurs in essentially all suitable habitats during appropriate seasons, with certain species at times abundant; species should be easy to find.

F = Fairly common: Occurs in some or most suitable habitats during appropriate seasons, but less abundant and at times few in number; species often found.

U = Uncommon: Occurs in relatively small numbers; species not observed regularly even in proper habitats.

R = Rare: Either found in restricted habitat, or occurs most years in small numbers; species difficult to find.

V = Very Rare: A species beyond its normal range that may occur intermittently and in very small numbers.

+ = Accidental: Only one or two historical records to date.
