

# Klukwan Species Checklist

## **Location Description**

Located in the Chilkat River valley near the junction of the Chilkat, Tsirku and Klehini Rivers is the Tlingit Village of Klukwan, a federally recognized tribe known as the Chilkat Indian Village. During your visit to Klukwan, you can learn about the culture of this tribe and the nearby Chilkat Bald Eagle Preserve at the Jilkaat Kwaan Cultural Heritage and Bald Eagle Preserve Visitor Center. This area, known as the "Valley of Eagles," hosts the highest concentration of American Bald Eagles in the United States as they congregate in October and November for a late season chum salmon run.

#### Seasons

Spring: March–May Summer: June and July Fall: August–November Winter: December–February

### **Frequency Classification**

**C** = Common: Occurs in essentially all suitable habitats during appropriate seasons, with certain species at times abundant; species should be easy to find.

**F** = Fairly common: Occurs in some or most suitable habitats during appropriate seasons, but less abundant and at times few in number; species often found.

**U** = Uncommon: Occurs in relatively small numbers; species not observed regularly even in proper habitats.

**R** = Rare: Either found in restricted habitat, or occurs most years in small numbers; species difficult to find.

**V** = Very Rare: A species beyond its normal range that may occur intermittently and in very small numbers.

**A** = Accidental: Only one or two historical records to date

**NP** = Not Present or No Records: A species is generally not present in during a specific season (due to seasonal migration) or no records exist of a species' presence in that season.

This checklist was designed by experienced ornithologists and birders to help visitors to the Southeast Alaska Birding Trail plan and enjoy their trips. This list is not a guarantee that a particular species will be present at a given location, and not all species on a community list will be present at all sites in that community. This list is for recreational use only, not for use in scientific publications, environmental impact assessments or other planning documents.
