

## Data Sheet: PAGE 1 – BANDING DATA

for Mapping Bird Migrations – Part II  
with Audubon Alaska

Species of Bird	Color on map	Band Number	Month Banded	Banding Location (Longitude & Latitude)	Banding Location (Country & State)	Notes
Dunlin	○	015-348635	April	22 North, 114 East	China (Hong Kong)	Looks healthy, bird was foraging for food in the mudflats
Pacific Golden-plover	○	015-783650	April	22 North, 159 West	United States, Hawaii	This bird appears ready to migrate, captured on grassy lawn
Pacific Black Brant	○	801-843545	April	41 North, 124 West	United States, California	Small dark goose, good condition, swimming in lagoon
Northern Goshawk	○	503-554631	April	36 North, 112 West	United States, Arizona	Good energy, seems healthy, captured in mixed forest
Tundra Swan	○	901-944430	April	35 North, 76 West	United States, North Carolina	Large healthy female, swimming around with a group of swans and ducks

Cut out the five birds and tape them just south of their banding locations (except for the Pacific Black Brant, put his picture to the west of his location!)

## Data Sheet: PAGE 2 – RECAPTURE DATA

for Mapping Bird Migrations – Part II  
with Audubon Alaska

Species of Bird	Color on map	Band Number	Month Recaptured	Recapture Location (Latitude & Longitude)	Recapture Location (Country & State)	Notes
Dunlin		015-348635	April	35 North, 136 East	Japan	Bird appears healthy and in good condition
Tundra Swan		901-944430	April	38 North, 76 West	United States, Maryland	Was swimming with big group of other swans
Pacific Black Brant		801-843545	April	47 North, 124 West	United States, Washington	This goose was feeding on eelgrass in the lagoon
Northern Goshawk		503-554631	April	38 North, 122 West	United States, California	Red iris indicates an adult bird, looks healthy
Dunlin		015-348635	May	53 North, 158 East	Russia	Bird was feeding along mudflats with mixed flock of shorebirds
Pacific Golden-plover		015-783650	May	58 North, 158 West	United States, Alaska	Good condition, when released, flew north
Tundra Swan		901-944430	May	43 North, 84 West	United States, Michigan	Swan was feeding with small group of waterfowl
Pacific Black Brant		801-843545	May	55 North, 163 West	United States, Alaska	Bird was part of large flock of other Brant, feeding in lagoons
Northern Goshawk		503-554631	May	52 North, 128 West	Canada, British Columbia	This hawk was recaptured in an old-growth forest
Dunlin		015-348635	June	70 North, 153 West	United States, Alaska	Dunlin recaptured as part of nesting study
Pacific Golden-plover		015-783650	June	66 North, 166 West	United States, Alaska	Plover nesting on tundra, with 2 eggs laid
Tundra Swan		901-944430	June	70 North, 144 West	United States, Alaska	This swan was part of a mated pair nesting in the Arctic Refuge
Pacific Black Brant		801-843545	June	71 North, 152 West	United States, Alaska	Brant captured in good condition, north of Teshekpuk
Northern Goshawk		503-554631	June	56 North, 133 West	United States, Alaska	Upon release, this hawk was a fierce defender of its nest.
