Petersburg - Petersburg Town Center Species Checklist

For more information, see https://ak.audubon.org/.

Seasons:
Spring: March–May
Summer: June and July
Fall: August–November
Winter: December–February

Frequency Classification:
C = Common: Occurs in essentially all suitable habitats during appropriate seasons, with certain species at times abundant; species should be easy to find.
F = Fairly common: Occurs in some or most suitable habitats during appropriate seasons, but less abundant and at times few in number; species often found.
U = Uncommon: Occurs in relatively small numbers; species not observed regularly even in proper habitats.
R = Rare: Either found in restricted habitat, or occurs most years in small numbers; species difficult to find.
V = Very Rare: A species beyond its normal range that may occur intermittently and in very small numbers.
+ = Accidental: Only one or two historical records to date.
